

# DM300C™ Mailing System

Maximise Office Productivity

# DM300C™ Mailing Systems maximise office productivity

## DM300C™ Digital Mailing Systems are simple to use and highly productive!

Every business needs to operate as efficiently as possible. Even daily, routine tasks need to be performed in a productive manner. The easy-to-use, DM300C™ Mailing System will amaze you with its simplicity and advanced capabilities.

### ★ The Power of IntelliLink®

The cutting-edge *IntelliLink*® technology contained within the DM300C™ provides an easy to use secure gateway to advanced features and services. *IntelliLink*® gives you access to a suite of services ensuring your system is kept current and operates at maximum efficiency. These include automatic downloads of postal rate changes and software upgrades. The DM300C™ also has the capability to download logos and advertising slogans transforming once manual processes into quick operations.

### Time saver

#### ■ Fast, accurate postage re-crediting

*IntelliLink*® technology provides convenient, one-touch postage refills with PostagebyPhone®. Get up to 55 days free credit with the post now, pay later facility of Purchase Power<sup>SM</sup>.

#### ■ Always up to date

*IntelliLink*® technology provides effortless, hassle free, postal rate downloads and software updates. With *IntelliLink*® technology you can be sure that your equipment is always up to date.

#### • Easy to use

All controls are fully integrated on one clear easy to use control panel with user-friendly instructions to guide the operator through each stage of processing mail.

#### • Reduced mail preparation time

Seal and frank your envelopes at the same time, resulting in a professional ready to mail document. Larger mail is quickly processed with self adhesive tape strips. Time is saved with 5 presets for your most commonly used jobs.

#### • Auto-Dating eliminates returned mail due to misdating

An internal clock advances the date automatically. Operators can advance the date to get a head-start on processing tomorrow's mail.

#### ■ Incoming mail dating

Date and time stamping capability ensures your incoming mail is handled efficiently by providing the option of recording when it arrived.

#### ■ Handle rate changes easily

*IntelliLink*® technology allows postage rate changes to occur automatically. No need to grapple replacing a PROM chip anymore.

#### • Digital technology is a gateway to the future

The DM300C™'s digital meter satisfies all current postal regulations, and the technology's flexibility makes the DM300C™ adaptable for the future.

## Cost saver

### ■ Correct value postage - every letter, every time

The DM300C™ incorporates a 5kg integral weighing platform, freeing up desk space and guaranteeing that each letter or package bears the correct postage value. There are also options for 7kg, 12kg and 35kg interfaced weighing platforms. Differential weighing technology enables batches of mixed mail to be processed quickly and efficiently. The differential mail feature means that a collection of mail can be placed on the scale and the machine will calculate the correct postage for each mail piece as it is removed from the pile.

### • Information management

It's crucial for businesses to account for postage expenses. Departmental or client postage spend can be easily tracked and reported with the 100 accounts available on the DM300C™. Reports can either be printed or there's the option of exporting to a PC for further analysis.

### • Strengthen your brand with targeted and effective mailing

Transform your mail piece into eye-catching communications. Advertise your business on every mail piece with sharp inkjet printing to build your professional image. Print a return address or message alongside your customised slogan to ensure undelivered mail is returned thus improving the accuracy of your mailing database and ultimately reducing expenditure on subsequent mail shots. These are easily entered via a built-in qwerty keyboard.

## Franking discounts

With a franking machine you'll receive a discounted price compared to stamps. There's discounted prices for standard class letter post weighing less than 100g - and also for bulk mail in batches of more than 350 pieces.

## More than letters...

The DM range of franking machines from Pitney Bowes provides a gateway to a wide range of An Post postal services, a selection of which is shown below:

- ✓ **Express Post.** Have you got an item that needs to be delivered urgently? With the Express Post service post is delivered the next day nationwide. A signature on delivery can be collected and insurance cover up to €350 can be included for extra peace of mind.
- ✓ **Courier Post.** When your item absolutely has to get to its destination on time there's Courier Post to ensure a next day before 12pm delivery to all urban areas of the Republic of Ireland. Day-certain delivery is also available for items with a worldwide destination - with full online track and trace.
- ✓ **Registered Post.** If you have important or valuable documents to send and want to check on delivery, Registered Post fits the bill. With proof of posting, the option of signature on arrival and online tracking, your delivery is easy to trace.
- ✓ **Discounts for bulk mail.** If you're sending at least 350 items in a single mailing, you can take advantage of postage discounts from An Post. The level of discount varies according to type of item (letter, large envelope, packet) and whether you can prepare your mail so An Post's automated technology can read and verify the address. (Please ask your Pitney Bowes account manager to explain how we can help you meet these requirements.)
- ✓ **Discounts for Large mailers.** For regular senders of large volumes of mail (2000+) there is greater flexibility. Delivery options are wider and there is more choice of when to present your mail. The discount available increases the earlier you present your mail and is dependent on the percentage of mail that is prepared in accordance with An Post's automated sortation technology. (Please ask your Pitney Bowes account manager to explain how we can help you meet these requirements.)

Industry Innovation

## DM300C™ Specifications

### Physical dimensions

Length	370mm
