Tri Rate Color Pricing

Sometimes less than $0.02 per page

Not all color prints are the same, so why should they cost the same? They shouldn't, and at On Demand they DON'T!"

Many "color" prints only use a small amount of color ink. So, instead of paying one price per page, with On Demand color solutions you only pay for what you actually use.

With inexpensive tri-rate color pricing, it's more affordable than ever to print in color while reaping the benefits color brings to your business documents. Research tells us that color is one of the first things that people automatically register when evaluating an image or document—and it has an influential effect on buying decisions, as well. So, with more affordable color printing, you can use color more frequently for your business documents and marketing materials.

Epson Workforce Enterprise Series

60 / 75 / 100 PPM
The Color Multifunction Printer Line Revolutionizing Workflows and Productivity.

WorkForce Enterprise WF-C20600 | **WorkForce Enterprise WF-C20750** | **WorkForce Enterprise WF-C21000**

Powerful Production.
Secure. Energy Efficient.

What if your business printer could deliver speeds up to 100 pages per minute while still maintaining professional, high-quality outputs?
That's exactly what the Epson Workforce Enterprise Series was designed to do. By delivering everything that your workgroup needs with minimal hassle and downtime, your team can rely on this line of devices to boost productivity and streamline workflows at an affordable rate.

With ultra-fast throughput for remarkable turnaround times, a full suite of advanced security features you can count on, and the lowest power consumption in its class, this line of color multifunction printers will exceed your expectations. Each of these A3 devices reliably produces high volume of documents of the highest quality to move at the speed of your business.

So Many Benefits:

- Up to 100 pages per minute
- As low as under $300 / month
- Up to 100,000 images / month
- Full color for under 3 cents
- Reduction scale to size
- Print on paper, card stock, envelopes, and more
- Cold pressure technology for less moving parts to ensure reliability
- PrecisionCore, heat-free technology helps reduce power consumption saving on energy usage and costs
- Store scanned data to PCs and the internal HDD for later use

Production Printing

Bring Printing In House and Save with Production Printing Solutions

Stop wasting time and money at print shops.

Statistics show that 35 - 40% of outsourced printing ends up in the trash, which you end up paying for.

Choose the more practical and affordable alternative by switching to an in-house production printing system that provides the same high -quality printing capabilities without the high costs or waste associated with print shops.

On Demand is dedicated to serving our customers with industry leading, cost effective production printing and workflow solutions that solve real challenges and deliver business results. Discover how you can boost productivity, improve profitability and impress your clients with On Demand production printing solutions.

Expand your digital print capabilities with advanced production printers and copiers for your biggest jobs.

#312954932

Benefits include:

- Superior Print Output

- Reduced Printing Costs

- Minimum Waste - only print what you need

- Print **ON DEMAND** Anytime

- Flexible Finishing Options

- High Definition Color

- Versatile Print Control and Color Management

Wide Format Printers

Print Vivid, Large Documents In House on Paper, Vinyl, Fabric, and Other Materials

High-Performance, Flexible, Efficient Printers for Your Large-Scale Jobs.

Skip waiting in a queue and paying astronomical fees to outsource your large-scale print jobs to third-party vendors and bring your big projects in-house with our wide format printers. This economical choice ensures a quick turnaround time on large projects, such as banners, posters, and other marketing materials, as well as architectural and construction renderings.

Epson and KIP wide format printers bring the flexibility you need by offering an array of functions and options to meet your business needs at affordable price points. These versatile devices are designed to increase productivity, reliability, and image quality and deliver consistent color across all of your large projects

So Many Benefits:

- Exceptional color quality
- Meet large-project demands, such as posters, banners, car wraps, decals, and more.
- Reduce costs with in-house, on demand printing
- Faster project turnaround times
- Advanced technology features
- User-friendly
- Increased security & confidentiality

Service & Maintenance

Expect Unparalleled Service

At On Demand Business Equipment, serving our clients is our top priority. We strive to provide superior customer service and the most innovative document imaging products and solutions to help your office continually operate more productively, more efficiently, and more cost effectively.

Our diligent work ethic, local presence, and commitment to helping every client achieve their goals are what drive us to deliver a higher level of service.

Our goal is to exceed your expectations.

Preventative Maintenance

What our customers tell us they want most from their office equipment is, "For it to work each time, every time." While we can't promise that, preventative maintenance goes a long way toward that goal.

When your machines are out of commission, your business is losing money. So, we strive to ensure maximum uptime for your office equipment by using state-of-the art monitoring tools that track the performance of your output fleet in real time. That way, we can address small issues before they become big problems. Things like meter readings, error codes, IP addresses, and supply levels are all monitored automatically.

Benefits include:

- Remotely monitor your toner levels and meter reads...no need to call

- 4-hour response time

- Our service line always connects you to a live representative

- Company-owned, commercially insured vehicles

- "All inclusive" means ALL inclusive – no shipping charges for toner or fuel service charges

- Triage and get your device up and running with a tech over the phone

Mailing Solutions

Mailing and Shipping Solutions to Simplify Your Business

FP™

Real. Simple. Mailing.

The key to more efficient mailing and shipping is a well-planned system with fast, reliable, and easy-to-use equipment.

Mailing and shipping systems from On Demand will simplify your mailing and shipping processes, so that you can spend more time growing your business.

High quality mailing equipment, like postage meters and other advanced mailing machines, simplifies the shipping process. Efficient mailing solutions and software allow businesses to successfully use direct mail to target individuals who will be best serviced by their products, without decreasing productivity or increasing labor costs.

Whether you need one machine or a complete mailing system, On Demand can help. Our compact and efficient tabletop equipment can save you time and money in every phase of your operation.

We offer an extensive selection of mailing and shipping equipment, including:

- Automated Mailing and Shipping Systems
- Folders and Inserters
- Addressing and Imaging Equipment
- Postage Machines
- Mailroom Software
- Mailing and Shipping Supplies for All Postage Machines

On Demand is an Authorized FP Mailing Solutions Dealer

Maximize postal discounts.

Shredding

Secure, On-site Document Shredding

ON DEMAND

MBM CORPORATION

Protect your reputation and your personal information with shredders from On Demand.

- No fuel service charges

- No bins that grow like mushrooms

- No lack of security

- Efficient & cost-saving

- ROI within 18 months

- Lifetime warranty on shredding head
Much less expensive than a shredding service.

In today's world of identity theft, privacy violations, and information fraud, it is more important than ever to protect your paper data by shredding and destroying sensitive information.

Don't let your sensitive information sit in unsecured shred bins - destroy it immediately with secure on-site shredders.

IT SOLUTIONS
On Demand IT Services

- Managed IT Services
- On-site Service & Support
- Remote Monitoring & Management
- Emergency Response
- Remote Backup
- Security Protection & Spam Filters
- Help Desk Support
- Cloud Services

With IT solutions from On Demand, you get reliable technology and dependable service at an affordable price – guaranteed.

Many business owners find it difficult to deploy, manage, and protect their technology networks. It's often a challenge to keep IT costs low, prevent problems, and ensure maximum uptime while maintaining the continuity and profitability of your business. But, with IT solutions from On Demand, you'll receive powerful and flexible IT support so that your staff can focus on more critical tasks.

The On Demand IT Services team serve as long-term, goal-oriented partners that work with your company to ensure a fully functioning network. Our support engineers are credentialed with current CompTIA®, Microsoft®, HP®, and Cisco® certifications and work hard to take care of your needs through proactive monitoring and ongoing management of your entire network.

Benefits of Partnering with On Demand IT?

- Control your costs: Setting up an in-house IT department can get very expensive. Outsourcing your IT needs to On Demand can save your company money by controlling costs with affordable flat-fee pricing.

- More time for staff to focus on core business functions: With our reliable team handling your IT requirements, your employees' work load will lighten and they can focus their energy on more critical tasks.

- Save on training costs and capital expenditures: On Demand IT will handle everything, including the hiring and training of skilled IT personnel—tasks that would take significant time and money to accomplish in-house.

- Receive access to specialized skills: By partnering with On Demand for your IT need, you have greater access to a wide range of specialized skills and expert technicians prepared to handle all of your IT issues.

- Minimize the impact of rapid changes in technology: We'll ensure that your business stays up to date with the latest software releases and new security updates to further protect your network infrastructure.
